DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5 are allowed over the prior art.
2. The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose singly or in combination the claimed method for the production of a laminate consisting of alternating layers of metal and fibre-reinforced plastic bonding layers, the method comprising the steps of: providing a forming jig with at least one centring pin; placing at least two metal layers with a fibre-reinforced plastic bonding layer between them on the forming jig, in which layers there is an opening through which the centring pin extends; placing an aid on the layers around the centring pin; applying an evacuation medium to the layers around the centring pin; applying a covering film on top of the layers, the centring pin and the aid, a blanket being made up of the evacuation medium and the covering film; applying and maintaining a reduced vacuum to the layers between the forming jig and the covering film; making a hole in the covering film and the evacuation medium at the location of the centring pin; removing the centring pin via the hole; sealing the hole with sealing means; activating the bonding layer in the autoclave under the influence of heat and pressure. Taken in conjunction with all of the further limitations there would have been no suggestion in the prior art sufficient to lead to the claimed method.
3. The closest prior art of record, Forster et al., fails to teach the requirement making a hole in the covering film and the evacuation medium at the location of the

centring pin; removing the centring pin via the hole; sealing the hole with sealing means; activating the bonding layer in the autoclave under the influence of heat and pressure. In addition, there is no suggestion in the prior art so as to render obvious the additional step of removing the pin of the laminate before vacuum sealing and activating the bonding layer to seal the hole.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
